Be Mine! is the most comprehensive “high-touch” wedding video company in Milwaukee. Offering services beyond the ordinary, impeccable customer service and a happiness guarantee, Be Mine! aims to deliver memorable results.

My goal is to capture more than your average videographer and my legacy is to provide the best videos of your wedding day that you will cherish for years to come, my pride is in being adaptable to any situation and give you the best customer service.

Each wedding is professionally edited from the best clips taken throughout the day. Each project takes about 70 hours to complete from start to finish. My video style is documentary/journalistic in approach, chronological in sequence - your day tells the story! The average run time of all videos is approximately 45 - 60 minutes* of my best footage.

Here's what my clients have to say:

"I'd like to start out by saying that Bruce is AMAZING. We absolutely loved working with him and love the videos he created for our winter wedding. He captured our entire day so beautifully, and the videos are just perfect. We wouldn't change a thing. He was VERY easy to communicate with, was on time to all of the locations, and was overall very professional. The gentleman that "runs" our Church and helps ensure wedding ceremonies go smoothly even approached us at our rehearsal and said, "People just don't get any nicer than him" as he had met Bruce prior to us arriving at the Church. We were EXTREMELY grateful that Bruce came to our rehearsal and genuinely cared about what was going to happen and when so that he could capture the moments in the best way possible. My husband and I would highly recommend Be Mine for your videography needs on your special day!!!"

Another RAVE Review:

"My husband and I have nothing but great things to say about Bruce! We had some last minute events occur where family members were not able to attend the wedding. We reached out to Bruce the week of our wedding (so thankful he had a free weekend!!), signed our contract and he was there the next day bright and early at the hair salon ready to film! Throughout the entire day Bruce was friendly, professionally and you could tell he was very passionate about his work. He captured all of our special moments and more! We received our final products in a short amount of time and can't stop reliving the memories! We are so thankful and appreciative of Bruce for helping us capture our wedding day! We give Bruce a 10 out of 10 and recommend him to everyone who wants to relive their wedding day with the click of button. Also, the drone footage it out of this world and added a neat perspective to the whole day!"
